Xi Xiao

Curriculum Vitae

Email: xi.xiao007@gmail.com
Web: xixiaofinland.com

Working roles

2023.7 – 2026.7	Salesforce senior developer, Elisa
2022.6 – 2023.7	Salesforce senior developer, IsoSkills
2019.8 – 2022.6	Salesforce senior developer, Fluido
2018.2 – 2019.8	Salesforce developer, Biit
2008.8 – 2018.1	KONE, multiple roles: architecture, solution configuration owner

Education

2011 – 2012.6	**Helsinki Metropolia University of Applied Sciences**, Master of Engineering, Industrial Management
2005 – 2008.11	**Aalto University (Helsinki University of Technology)**, M.Sc., Major: Mobile Computing

Salesforce projects

- Sales Cloud and Marketing Cloud customization (Apex + LWC)
- CloudSense (CPQ) custom workflow
- Defined Apex coding patterns and 3rd-party libraries as best practice
- Data model and data migration from a legacy CRM
- Legacy code cleanup and refactoring
- DevOps implementation

Integration projects

- **Alma Media company data** → **Salesforce** (Elisa): daily scheduled Apex REST callouts pulling changed company and contact data and updating the matching records (one-way delta sync). Failures logged to a custom log object; transient network errors retried, data mismatches logged for review.
- **Salesforce** → **Kafka** user sync: published user-change Platform Events from Salesforce and aligned the event contract with the Kafka team, so the central user system stays in sync (event-driven pub/sub)
- **Salesforce (Copado)** → **Jira** ticket sync: designed and built solo as a 2nd-generation package; a scheduled Apex job creates the matching Jira ticket for each new Copado User Story and syncs its data and links (one-way)
- **SharePoint in Salesforce** (Biit, PoC): showed SharePoint sites, folders and files inside Salesforce, filtered by each user's SharePoint permissions, so users no longer had to switch to SharePoint

Certifications

Salesforce: Admin, App Builder, Developer I, Sharing and Visibility Designer, Development Lifecycle and Deployment Designer

Anthropic:

- Claude Certified Architect – Professional
- Claude Certified Architect – Foundations
- Claude Certified Developer – Foundations

AI projects

- Viikkoja: LLM-based Finnish-to-Chinese news summarization and podcast-generation service, built and run end to end

- Parent Recap: open-source Claude Code plugin (co-developed) that turns school and community messages into a daily brief for parents; built its LLM gateway (Bifrost behind Caddy on Oracle Cloud) with per-household keys
- Local AI stack on a home server: open-weight LLMs on llama.cpp behind llama-swap, Qwen3-ASR speech-to-text for voice dictation with local-LLM text cleanup, and Qwen3-TTS voice for the agent's daily briefing
- Used-instrument valuation agent: prototyped an image-based AI agent with vision input and market-price estimation, shipped on Azure

AI knowledge

- Coursera: Machine Learning Specialization
- Claude Partner Network courses
- Book: *Machine Learning with PyTorch and Scikit-Learn*

AI coding skills

- Agentic coding workflow design
- Coding agents: Claude Code, Codex, OpenCode, Pi
- Own agent-skills repo

Homelab and automation

- Three machines (macOS and two NixOS) managed as code from one Nix flake: reproducible setup, declarative services, automated flake checks
- Self-hosted services and scheduled jobs on a home server, with a shared job framework for status reporting, logging and failure alerts
- AI ops monitor: deterministic health checks; on failure, Claude triages the incident and may apply one allowlisted fix, otherwise escalates
- Self-hosted AI agent connected to chat (WhatsApp, Slack via Beeper) and notes, with twice-daily digests and a decision queue
- Automated pipelines: CV build-and-publish, encrypted off-site backups (restic)

Public contribution

- GitHub profile
- Apex language formatter (Rust)
- Neovim Salesforce dev plugin
- Salesforce dev podcast and YouTube channel
- Salesforce blog
- Personal blog

Other

- **Programming:** Rust, Python, TS/JS
- **Languages:** Chinese (native), English (fluent), Finnish (fluent in everyday use; technical discussions preferably in English)
